

PREVIEW OF eBook – INDIA SIRIUS ONE

This book is about phenomena, historical events that were violently shaped the existence of our planet. Lot of material in this eBook has never been printed, so it may come as surprise to at least some of the readers.

Although, the aim is never to dismantle the hierarchy of political or religious establishments, however, the special point of views are boldly expressed unapologetically.

Our planet has reached a critical state requiring concrete and clear cut observations that are bold and fearless:

Nowhere else has ever been categorically mentioned that both Buddha and Christ were aliens that they belonged to planets Neptune and Uranus respectively.

That some countries including India are under direct control and domination by extraterrestrials belonging to planets in the Sirius constellation.

For millennia, hidden from each and every one of us is the most critically vital fact that India and Sirius is one and the same thing! Though entirety of Indian population may not be but essentially at least one billion of Indian population is Sirian incarnate! Uniting the inner core in the forms of gods and goddesses the Sirians homogeneously merged and reincarnated over hundreds of generations. These ETs are known to be of blue color. Although, not surprisingly the most influential entities like Krishna, Rama and others were blue in color in contrast to others as seen in multitudes of renderings based on ancient history but this obvious connection has been

ignored. However, over multiple generations the Sirians incarnates became lighter in color.

A popular figure like Dr. Steven Greer's continues to promote ETs harmless intentions to help us. That is illogical as no one can be sure that among billions of species of ETs none will harm or usurp us? By his constant emphasis of Hindu Vedic mantra and recitation as planets role model he has become a puppet in the hands Indian/Sirians!

USA already is in control by the ETs who are in the process of total control of this planet initially using mind control and later by marvels of their technological prowess.

And the debilitating conflicts among people and wars among countries are meant to soften us for easier control.
